

Mosquitoes ⁱⁿ Washington County

Mosquitoes need standing water to breed. Look for and eliminate the places around your home where water collects. Encourage your neighbors to do the same.

What Can You Do?

- Empty containers where water collects.
- Maintain ponds, outdoor pools and hot tubs in working order.
- Prevent water from pooling in children's toys
- Install tight fitting screens on all windows and doors.
- Avoid being outdoors from dusk to dawn.
- Wear long sleeves and long pants while outdoors.
- Use mosquito repellent with DEET.
