After six full calendar months of employment, employees contribute 6 percent of their salary to an individual account (IAP) on a pre-tax basis through automatic payroll deduction. In addition, Clean Water Services makes a contribution based on the projected benefits of the employees and the cost of the plan.

OPSRP members are eligible for full retirement benefits at age 65 or at age 58 after 30 years of service. The OPSRP individual account is immediately vested, and the employer contribution is vested after an employee works at least 600 hours in 5 calendar years. At full retirement, benefits are calculated by taking $1.5\% \times$ final average salary $\times$ retirement credit in years, plus the IAP account balance. Employees who worked in a PERS covered position prior to August 29, 2003 can contact Benefits for more retirement information.

This occurs through a performance based pay system, where employees’ salary increases are based solely on performance. In addition, the District provides a Goal Sharing Program which is aimed at helping the District save money, improve processes, and reward employees for setting high goals and reaching them.

Combined, the Performance Based Pay System and the Goal Sharing Program allow employees to influence their individual wages through high performance and contributing to the achievement of District goals.
